APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion of the waters of the Truckee River as heretofore granted under Claim 726, Truckee River Final Decree is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein.

The total diversion rate of this permit, Permit 44591 and the diversion points delineated under Claim 726 of the Truckee River Decree shall not exceed 13.6 c.f.s.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 13.6 cubic feet per second, but not to exceed 3208.76 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before February 13, 1986

Proof of completion of work shall be filed before March 13, 1986

Application of water to beneficial use shall be made on or before February 13, 1987

Proof of the application of water to beneficial use shall be filed on or before March 13, 1987

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed FEB 03 1986

Proof of beneficial use filed JUL 9 1987

Cultural map filed

Certificate No. 12602 Issued DEC 31 1987

IN TESTIMONY WHEREOF, I PETER G. MORROS
 State Engineer of Nevada, have hereunto set my hand and the seal of
 my office, this 13TH day of FEBRUARY

A.D. 19 85

Peter G. Morros
 State Engineer

EXHIBIT "B"

Water will be diverted by all of the methods listed below or any combination thereof and transported to existing treatment plants.

- A. Water will be diverted from Hunter Creek at the proposed point of diversion by means of an existing open ditch and transported to the Hunter Creek treatment plant.
- B. Water will be conveyed to the Truckee River via Hunter Creek and then diverted at the proposed points of diversion by means of existing dams and open ditches and/or existing pumping stations and pipelines and then transported to existing treatment plants at Idlewild and/or Glendale.
